

Citizen Groundwater Empowerment Workshop

Presented by
The North Coast Stream Flow Coalition
&
The Nature Conservancy

The North Coast Stream Flow Coalition, NCSFC, is partnering with The Nature Conservancy, TNC, to present this one day Citizen Groundwater Empowerment Workshop on Tuesday, November 13, 2018 10-3pm.

It is critical that we understand our local water resources and how we as local stakeholders in water security can advocate for conservation, protection and sustainability of surface and groundwater for now and for future generations.

We will teach you about the new groundwater legislation passed by the California State Legislature in 2014, the Groundwater Sustainable Management Act, SGMA, and how this new law applies to Napa County.

We are living in critical times with climate change, diminishing natural resources and high demand for water that is already over appropriated in California as well as much of the Napa River watershed including groundwater.

When: Tuesday, November 13, 2018

Where: 1625 Salvador Ave, Napa, Ca

Time: 10am - 3pm

Other:

LUNCH WILL BE PROVIDED.

A recommended donation of \$15.00 at the door is requested.

Space is limited.

To reserve now or if you have questions, call or email
