

NAPA GREEN

CERTIFIED WINERY

- Partnering with the **Green Business Program**
- Wineries in the NGCW program recycle **75% to 90%** of all materials.
- The Napa Wine Industry is leading Solar Power adoption with a **44 times greater** rate of new installation than that of other business sectors in the state.
- More than **2.5 million** cases of wine are produced in wineries certified under the NGCW program.

BEYOND COMPLIANCE

Throughout our history, vintners and growers in the Napa Valley have set the highest standard in the world in land use management designed to preserve our agricultural heritage and way of life.
