### Draft flood risk program guidelines available for public comment

DWR is [accepting comments](#) on the draft [Systemwide Flood Risk Reduction Program Guidelines](#). The [program](#) oversees projects that further the goals of the Central Valley Flood Protection Plan. Webinars to discuss the draft guidelines will be held in the [morning](#) and [afternoon](#) of Monday, Oct. 12 and on Tuesday, [Oct. 13](#). The comment deadline is Friday, Oct. 30.

### Flood-MAR webinar to be part of water series at Sacramento State

The [Sacramento State Office of Water Programs](#) is offering a [webinar](#) on the benefits and workings

of flood-managed aquifer recharge (Flood-MAR), on Friday, Oct. 2. [Flood-MAR](#) provides flood risk reduction, drought preparedness, and is a promising climate change adaptation strategy. The webinar is part of the Sacramento State [Water Webinar Series](#).

### Water organizations team up for symposium on managed aquifer recharge

The [17th Biennial Symposium on Managed Aquifer Recharge](#) will be held as a virtual event on Oct. 5–9. The agenda includes 46 speakers and a plenary on managed aquifer recharge. The symposium is a collaborative effort between the [Arizona Hydrological Society](#) and the [Groundwater Resources Association of California](#).

### Tomorrow's webinar will cover framework for One Water approach

The Alliance for Water Efficiency will discuss the [One Water approach](#) during a [webinar](#) tomorrow, Oct. 1. One Water is an integrated planning and implementation approach to managing water resources for long-term resilience and reliability. The webinar will discuss a framework that has been developed to help communities implement the approach.

### Online survey looking for input on sharing water and ecological data

As California State agencies and their partners implement the 2016 [Open and Transparent Water Data Act](#), they are looking at ways to improve the sharing of water and ecological data. As part of that effort, an [online survey](#) regarding data availability, is available online. The survey will be available through Saturday, Oct. 31.

### Virtual conference next week will feature clean-water technology

This year's [Water Environment Federation Technical Exposition and Conference](#) is set for next week, Oct. 5–9. The virtual event will feature the latest in clean-water technology. The conference will offer real-time, interactive events, along with more than 400 on-demand technical presentations.

### Monthly webinar series looks at a variety of California water issues

An ongoing [webinar series](#) on the third Friday of every month covers a variety of California water issues. Organized by the University of California Agriculture and Natural Resources Water Program Team, the series started last month with a [lecture on water and property rights](#). The next webinar will be Friday, Oct. 16.
